LET'S ROAM®

Follow these step-by-step directions to get started on your event!

1 **Download the Let's Roam app**. Head to Apple or Android app store or use the QR code.

2 **Sign into the app.** You can create a profile or hit skip and choose a nickname instead,

3 **Join your event.** Kick things off by clicking **"Join"** in the lower right-hand corner and enter the event code you are given.

4 **Create or join a team.** From your event lobby, create a team by tapping the **+** sign or join a team by tapping the team name, then hit **Join Team Now.**

5 **Everyone Ready?** Once the entire team is ready, it is time to hit **Start Hunt Now.**

Other things you should know!

- The hunt is not a race, first to finish doesn't win! Teams will work together to complete challenges, earning points along the way.
- Points are awarded for each challenge. That means that the team with the most challenges, locations, correct trivia, and fantastic photos will get the most points!
- The app leads the way. It will show you all of the locations, challenges, and keep track of points and pictures. If you have questions click **Call Support** from your dashboard. We are here to help!
- Want to say hi? Click the chat bubble at any time to talk to other teams and players in your event, or your host if you have one!
- Our app keeps track of the score and the leaderboard will let you know who the winner is once all teams have finished the hunt. Live photos and scores can also be viewed at any time from the dashboard right in the app!
- We suggest comfortable clothes and shoes for walking, water, and a fully charged device before you head out on your hunt.
